Name: _____

Score: ____ / 50

Reading

1 Read the text then answer the questions 2–8.

Technology on the move

According to recent estimates, the number of mobile phones in existence is more than the world's population. As far as developing countries are concerned, it comes as no surprise that China leads the table with over 1.25 billion phones. What might be surprising, however, is the fact that there are over 83 million mobile phones in the UK, which has a population of just 63 million.

If you walk around any typical British town or city, you will notice the number of shops selling not only mobile phones but also mobile phone accessories. Who is buying all these phones if everyone already has one? Clearly, the market is endless and the power of advertising is such that eager consumers will happily spend the night queuing for the latest smartphone.

Obviously mobile phones are here to stay, but are we in danger of allowing them to rule our lives? Although there are some, mainly rural, areas of the UK where it is hard to get a signal, you will generally be able to make calls whenever you want to, which has led to a society in which people feel they need to be available at all times.

For so many people, their mobile phone is their lifeline, their contact with the outside world. It is with them at all times, and I believe that it is this need to be in constant contact that is changing the way we behave. How often do you use your phone when it is not really good manners to do so?

Of course, it is true that life has improved in many ways due to the advances in mobile technology. However, it is also important to remember that the mobile phone is a tool and should not rule the way we live. How about having one day a week that is mobile free? Does that thought appeal to you or horrify you? I, for one, would be in favour.

2 Are the following statements true (T) or false (F)? Use the exact words from the text to justify your answers. (____ / 4)

1 The mobile phone market is limited. ____

2 The writer agrees with the idea of having one mobile free day a week. ____

3 Answer the questions in your own words. (____ / 4)

1 Why will people queue all night for the latest phone?

2 How do many people feel in society today?

4 Choose the best answers. (____ / 4)

1 According to the text ...

- a there are enough phones in the world.
- b there can never be enough phones.
- c everyone wants more than one phone.

2 In the UK, you can get a phone signal ...

- a everywhere.
- b only in some areas.
- c almost everywhere.

5 Write a question for which the underlined words are the answer. (____ / 4)

1 Thanks to the power of advertising, people will queue for hours.

2 The latest mobile phones cost about €300.

6 Rewrite the sentence using the words in brackets. (____ / 4)

1 Despite not having a mobile phone, I am able to organise my life. (although)

2 I can see the advantages of mobile phones, but I don't like them. (however)

7 Find words in the text that mean ... (____ / 5)

1 guesses (paragraph 1) _____

2 extras (paragraph 2) _____

3 in the countryside (paragraph 3) _____

4 how people behave (paragraph 4) _____

5 got better (paragraph 5) _____

Writing

8 Write a for or against essay in 100–150 words on the following: (____ / 25)

Mobile phones should not be allowed in schools.
