Upcycle it! *by Antonio Costa*

You know about recycling – turning old paper, metal, or glass into new materials. But do you know about *upcycling*? Upcycling is when you use old things to make something new, and better!

How can you upcycle?

I like to make hats and bracelets with plastic bags. My sister makes garden chairs with old car tires. We don't spend a lot of money on the materials. We use trash from our neighborhood. Don't worry! We clean the materials before we use them! Later, we sell some of the things online, but we also sell them at street markets.

Why upcycle?

We like upcycling because we don't throw away useful things, and we can make nice things for people to use. Upcycling is fun, and we earn some money, too!

Do you have any cool upcycling ideas?
Let me know in the comments!

Write *T* (true) or *F* (false) next to the statements.

- 1 When you upcycle, you use an old thing to make a new one. T
- 2 Antonio's sister upcycles old plastic bags. F
- 3 Antonio and his sister upcycle trash from their neighborhood. T
- 4 They only sell things online. F
- 5 Antonio enjoys upcycling. T

Ms. Paolillo, *music teacher*

One day at school, when I was 12, I listened to the *1812 Overture*, by the Russian musician Tchaikovsky, in music class. I thought the violins were exciting and full of emotion. After that, I wanted to play the violin, so I took lessons. I practiced every day and on weekends!

Now, I'm a music teacher. I share my love of music with my students, and I still play the violin in my free time.

Write *T* (true) or *F* (false) next to the statements.

- 1 Ms. Paolillo started to like the violin when she was at school. T
- 2 She practiced playing the violin only from Monday to Friday. F
- 3 She still plays the violin now. T

☐ 3

8 Write a post for the school blog. Remember to ...

- think about your childhood and choose a school subject
- describe a moment when you learned something new in your class
- write about how the lesson learned helps you now.

Students' own answers
